

FREEMAN EBENEZER

Front-End Developer & UX Engineer

+233 502261784 | eben.tre@outlook.com | trefreeman.framer.website

PROFESSIONAL SUMMARY

Production-focused Front-End Developer and UX Engineer with a strong track record of shipping real-world web applications across fintech, agri-tech, healthcare, and Web3 sectors. Experienced in integrating complex APIs, building modular component systems, and translating designs into responsive, production-ready interfaces using React, Next.js, and TypeScript. Comfortable owning technical delivery end-to-end, from architecture decisions to QA. A strong collaborator and equally capable of contributing to design systems and UX thinking when needed.

CORE COMPETENCIES

React / Next.js • TypeScript / JavaScript • HTML5 • CSS 3 • API Integration • Responsive UI Development • Component Systems • Figma • UX Research & Prototyping • Design Systems • GPS / Map Integrations • Cross-functional Collaboration • Remote Team Workflows

PROFESSIONAL EXPERIENCE

Front-End Developer & Technical Integrations Jan 2025 – Feb 2026

[Rainforest Builder](#) | Accra, Ghana — Agriculture, Conservation & Climate Solutions

- Integrated APIs for 13+ production features across the Silviculture and HR modules, including work logs, work order manager, team/employee settings, user profiles, carbon graph, contribution matrix, login logs, and platform settings used daily in operations.
- Built the HR module end-to-end, integrating APIs for attendance tracking, validation, performance breakdown and calendar views, plus employee and team management powering data used for staff payroll processing.
- Developed a GPS-powered interactive overview map showing real-time locations of project compartments and sub-compartments, collaborating with backend developers, scientists, and GIS specialists to ensure reliable data integration and reporting.

Front-End Developer June 2025

[Place Of Joy Homecare](#) | Georgia, USA (Remote) — Healthcare Services

- Designed and developed a full marketing website for a Georgia-based homecare provider, covering service pages, an about section, and an appointment booking page, translating client requirements into a warm, accessible, and conversion-focused design.

Front-End Developer Feb 2025 – Jul 2025

Annologic LLC | Accra, Ghana — [Web3africagroup](#) | [Vertria](#) | [Hyro](#)

- Designed and built the full website for Web3 Africa Group, a Web3-focused organisation, delivering a complete design-to-code solution covering all pages and content structure.
- Developed Vertria's website from UI designer-provided mockups and client specifications, faithfully translating visual designs into a responsive, production-ready front-end build.
- Built the Hyro crypto exchange landing page, aligning with client vision to present a Pan-African fintech platform enabling secure trading, saving, and investment in digital assets.

UX Engineer & Technical Consultant Jul 2024 – Nov 2024

SYENTIA ([Montessori World Connect](#)) | Atlanta, USA (Remote) — IT Consultancy

- Designed and built a multi-role web platform with School, Teacher, and Admin dashboards supporting billing, student management, and platform-wide administration.
- Built the public-facing website featuring IP geolocation-powered school search, a professionals directory, a careers page, a parent community space, and a blog, delivering a cohesive product serving schools, professionals, and parents within a single platform.

UX Engineer Jul 2023 – Dec 2023

SYENTIA | Atlanta, USA (Remote) — IT Consultancy

- Conducted user research and technical requirements gathering to inform application architecture decisions.
- Developed and tested web application prototypes, identifying and resolving technical issues iteratively.

UX Engineer & Technical Support Oct 2022 – Aug 2023

Precept Advisory (Newvi Financial) | Accra, Ghana — Financial Services Platform

- Led end-to-end technical delivery of web and mobile applications, overseeing system architecture, development, and QA testing.
- Conducted technical user research and structured requirements to align development with business and compliance needs.
- Delivered improvements that resulted in a 30% increase in platform engagement, evidencing stable, reliable system performance.

Product Designer Mar 2022 – Jul 2022

Inter-Regional Bridge Group | Accra, Ghana — IT Consultancy & Digital Agency

- Designed and developed a job board web application to client specifications, managing the full technical scope.
- Built a comprehensive dashboard supporting four distinct user roles, resolving UX and access control issues throughout development.
- Liaised with the project management team to document user requirements and deliver against technical milestones.

EDUCATION

BSc Information Technology 2016 – 2020
