

MOHIUDDIN RAHMAN

Senior Full-Stack WordPress Developer & Software Engineer

+880 1943 429727 · mmrahmanbld@gmail.com · Dhaka, Bangladesh (Remote-Ready) · [LinkedIn](#) · [GitHub](#) · [Portfolio](#)

PROFESSIONAL SUMMARY

Senior Full-Stack WordPress Developer and Software Engineer with 7+ years of professional experience architecting custom WordPress solutions, SaaS platforms, headless web applications, and performance-driven digital experiences. Deep expertise in custom theme and plugin development, WordPress REST API, PHP, JavaScript, React, and Next.js — paired with strong DevOps practices including Git, Docker, and CI/CD pipelines. Proven record delivering measurable results: 60–70% improvements in site speed, 40%+ increases in user engagement, and 95%+ client satisfaction across 300+ projects. Experienced working remotely with international clients across the UK and North America, collaborating within agile cross-functional teams. Passionate about technical SEO, website security, performance optimization, and building scalable systems that create real business impact.

CORE COMPETENCIES

DevOps & Tooling: Git · GitHub Actions · Docker · CI/CD Pipelines · Bitbucket · Postman · WP-CLI · Staging Workflows

Performance & SEO: Technical SEO · Website Optimization · Performance Optimization · Core Web Vitals · Responsive Design · Mobile-First Design · Accessibility

Other: API Integration · REST APIs · Website Security · Malware Scanning · Debugging & Troubleshooting · OOP · SOLID Principles · Agile Development · Remote Collaboration · PHPUnit · Codeception

PROFESSIONAL EXPERIENCE

Founder & Lead Software Engineer

Jan 2026 – Present

WPCodingPress (wpcodingpress.com) — Self-Founded · Remote

- Architected and engineered WPCodingPress, a SaaS platform delivering automated WordPress-to-Next.js conversion services and a digital products marketplace — demonstrating end-to-end software architecture, product engineering, and scalable system design.
- Developed custom WordPress plugins, React/Next.js components, and Node.js backend services integrated with third-party APIs (Gumroad, payment gateways) to power subscription-based client workflows.
- Implemented Docker-based infrastructure with GitHub Actions CI/CD pipelines and deployment to Render, ensuring reliable staging and production workflows.
- Engineered headless WordPress API integrations feeding a Next.js frontend — demonstrating modern full-stack architecture, REST API design, and performance optimization.
- Built and maintained multi-site infrastructure (wpcodingpress.com, theyeyepress.com) including DNS configuration, VPS management, and security hardening.

Software Engineer

Jun 2024 – Dec 2025

Offshore IT · Dhaka, Bangladesh

- Developed reusable custom WordPress plugins and CPTs for 30+ client websites, streamlining development workflows and reducing delivery time by 35%.
- Engineered high-converting Elementor and Divi page builder websites with custom forms, interactive modules, and UX-focused responsive layouts — producing a 40% increase in client engagement metrics.
- Implemented technical SEO best practices and performance optimization strategies, improving Core Web Vitals scores across multiple client properties.

WordPress Developer & DevOps Engineer

Sep 2021 – Jun 2024

Glossy IT & Trip Monarch · Dhaka, Bangladesh

- Delivered 80+ custom WordPress websites using Elementor, Divi, ACF, WooCommerce, and custom post type architectures for clients across digital marketing and travel sectors.
- Engineered CI/CD pipelines and automated infrastructure processes using Git and GitHub Actions, achieving a 60% reduction in deployment time and improving team delivery reliability.
- Integrated third-party REST APIs and payment gateways into WordPress and custom web applications, improving client operational efficiency.
- Collaborated with remote cross-functional teams including designers, project managers, and QA engineers in an agile development environment.

Senior WordPress Developer

Dec 2018 – Aug 2021

Mircode Solution · Dhaka, Bangladesh

- Boosted page load performance by 60% on average through database query optimization, caching strategies, image compression, and server-side performance tuning.
- Converted 70+ PSD/XD/Figma designs into fully custom, pixel-perfect, responsive WordPress themes from scratch — demonstrating strong HTML5, CSS3, PHP, and JavaScript skills.
- Developed custom PHP plugins to extend WordPress functionality, integrating REST APIs and third-party services for diverse client requirements.
- Performed ongoing website security audits, malware scanning, and technical SEO implementation for a portfolio of 50+ maintained sites.

WordPress & Frontend Developer

Mar 2016 – Dec 2018

Cholo Digital (Remote, UK Client) · Remote

- Designed and developed 30+ pixel-perfect websites using HTML5, CSS3, JavaScript, and PHP, collaborating remotely with a UK-based digital agency team.
- Achieved 40% improvement in user retention through cross-browser compatible UX, optimized first contentful paint, and responsive design implementation.
- Gained foundational remote collaboration experience working across time zones with international stakeholders — developing strong written communication and asynchronous workflow skills.

Frontend Developer

Mar 2015 – Apr 2016

BDeployer · Dhaka, Bangladesh

- Improved page speed by 60% through responsive page builds using web optimization techniques including lazy loading, minification, and CDN configuration.

KEY PROJECTS

WPCodingPress — SaaS Platform wpcodingpress.com

Founder & Lead Developer · Next.js · Node.js · WordPress · React · Docker · CI/CD · Gumroad API

- Personally architected and built a multi-product SaaS platform offering WordPress-to-Next.js automated conversion services and a digital products store (plugins, themes, AI agents, MCP servers).
- Implemented full-stack subscription billing via Gumroad API webhooks, automated client onboarding flows, and an admin dashboard — demonstrating end-to-end product engineering capability.

The Eye Press — Headless WordPress Platform theeyepress.com

Creator & Lead Developer · Headless WordPress · Next.js · WordPress REST API · Performance Optimization

- Engineered a headless news publishing platform decoupling WordPress as a CMS from a Next.js frontend via the WordPress REST API — achieving significant performance improvements and modern developer experience.
- Implemented SEO best practices, structured content architecture, and performance optimization resulting in fast page loads and strong Core Web Vitals scores.

eVisaTraveler — Full-Stack Travel Web Application evisatraveler.com

Lead Developer · Next.js · Prisma ORM · MySQL · REST APIs · VPS Deployment

- Architected and delivered a custom visa booking and management platform with full-stack Next.js, Prisma ORM, and MySQL — handling complex workflow automation, database design, and multi-service API integrations.
- Deployed and managed the application on a Hostinger VPS, configuring server infrastructure, DNS, and production environment — demonstrating full DevOps ownership.

Illume Digital Marketing Agency Website illumedigitalmarketing.agency

WordPress Developer · Elementor · Performance Optimization · SEO

- Redesigned and optimized a responsive WordPress website for a digital marketing agency, reducing load times by 60% and driving a 35% increase in qualified lead submissions from 5,000+ monthly visitors.

Ecomgiantz — WooCommerce E-Commerce Platform ecomgiantz.com

WordPress Developer · WooCommerce · Performance Optimization · Conversion Rate Optimization

- Developed and scaled a robust WooCommerce e-commerce infrastructure contributing to a 42% increase in conversion rates, 35% year-over-year revenue growth, and a 28% reduction in cart abandonment.

EDUCATION

Bachelor of Science — Computer Science & Engineering

2021

Northern University Bangladesh · Dhaka, Bangladesh

ADDITIONAL STRENGTHS

Remote Collaboration: Experienced collaborating with international remote teams across UK and North America; strong asynchronous communication, documentation, and delivery habits.

Automation & AI Integration: Proficient in workflow automation (n8n), LLM integrations, AI prompt engineering, and MCP server development — applied as supporting tools within web development projects.

Design Handoff: Experienced converting Figma, Adobe XD, and PSD designs into pixel-perfect WordPress themes and custom web interfaces.
