SUMMARY

Self-taught PHP developer with 5+ years of experience building full-stack web applications and SaaS solutions. Practical experience with frameworks like Laravel and strong skills in OOP, design patterns, SQL, and REST API development. Experienced in backend systems and integrating with React frontends. Committed to writing clean, maintainable, and efficient code, with mid-level English communication skills.

WORK EXPERIENCE

02/2025 – Present
El Sheikh Zayed, Cairo,
Egypt

Shahbandr Senior Backend Engineer

- Lead backend development for a SaaS e-commerce platform, ensuring scalable and maintainable PHP architecture.
- Developed the Video Commerce project, integrating video-based product listings for interactive customer experiences.
- Implemented integrations with multiple payment gateways and shipping providers, streamlining order processing.
- Built RESTful APIs consumed by React frontend, enabling dynamic e-commerce functionality.
- Applied OOP principles and design patterns, and optimized database queries for high performance.

05/2025 – 12/2025
New York

IIS E-Solutions Backend Developer / API Integration (OBA Project)

- Developed and maintained a WordPress-based backend for speed, scalability, and secure data handling.
- Integrated APIs for native iOS and Android mobile applications, ensuring seamless communication with backend systems.
- Connected the platform with a secure EMR system (Clara-compatible) for accurate medical record management.
- Implemented Stripe payment integration for secure U.S. transactions.

01/2025 – 07/2025
Saudi Arabia

RAQMEYAT Full Stack Developer & Team Leader

- Led a team for a high-profile Ministry of Culture (Saudi Arabia) project, ensuring timely delivery.
- Developed full-stack solutions using PHP backend and React frontend.
- Optimized databases and integrated third-party services and internal APIs.
- Applied OOP principles, design patterns, and code reviews to maintain high-quality standards.

05/2023 – 01/2025
cairo,Egypt

OO Agency Full Stack Developer & Team Leader

- Led multiple client projects, ensuring high-quality code delivery and team coordination.
- Developed dynamic web applications using PHP, SQL, and React, applying design patterns and best practices.
- Mentored junior developers and conducted code reviews to maintain code quality.

11/2023 – 09/2024
Egypt

Innglo
PHP Developer

- Developed and maintained PHP web applications with backend functionality and business logic.
- Optimized SQL databases for performance and reliability.
- Collaborated with frontend developers for full-stack integration.

11/2023 – 02/2024
Egypt

Tamkeen
PHP Developer

- Built and maintained PHP-based web applications, focusing on backend functionality.
- Designed and optimized databases for efficient performance.
- Implemented custom features according to client requirements.

05/2023 – 11/2023
Egypt

تسويقية TASWIQYA
PHP Developer

- Developed and maintained backend systems using PHP.
- Optimized SQL databases and ensured seamless integration with frontends.
- Applied OOP principles and design patterns for clean, maintainable code.

01/2021 – 05/2023
Cairo, Egypt

Integrity Corp.
PHP Developer

- Developed PHP web applications, implementing backend functionality and business logic.
- Integrated third-party APIs and internal services for enhanced functionality.
- Optimized SQL databases and collaborated with frontend developers for full-stack delivery.

03/2022 – 03/2023
Cairo, Egypt

Helwan University Cairo
Teaching Assistant

- Assisted in Communication Engineering courses and labs.
- Contributed to a Virtual Lab project using C#, developing software components and preparing documentation.
- Applied software engineering principles to ensure reliable and maintainable academic software.

EDUCATION

2015 – 2020
Cairo, Egypt

Bachelor's Degree, Communication and Information Technology Engineering
Helwan University Cairo

- Participated in software projects using C# and applied engineering principles to virtual lab systems.

SELECTED PROJECTS

Video Commerce Platform

Shahbandr

- Developed a SaaS e-commerce platform integrating video-based product listings.
- Built backend services with PHP and frontend interfaces with React.
- Integrated multiple payment gateways and shipping providers for seamless order processing.

OBA HealthClub Platform

IIS E-Solutions

- Built a WordPress-based backend and integrated APIs for iOS and Android apps.
- Connected with a secure EMR system (Clara-compatible) and integrated Stripe payments.
- Developed pharmacy ordering system, appointment booking, surveys, educational content, and secure messaging features.
- Ensured all data was securely logged in the EMR for care continuity.

Ministry of Culture Platform

RAQMEYAT

- Led full-stack development for a high-profile Saudi Arabia government project.
- Built solutions using PHP backend and React frontend; optimized database performance.

Virtual Lab Project

Helwan University

- Developed software components for a Virtual Lab system in C#.
- Created documentation and applied software engineering best practices.

Utility & Optimization Web Tools

- Built backend systems for data processing, automation, and SaaS applications.
- Designed SQL databases, REST APIs, and integrated with frontends for full-stack functionality.

SKILLS

Backend / Server-Side

PHP Laravel WordPress plugin development SQL OOP Design Patterns

Frontend / Client-Side

HTML CSS JavaScript React (basics)

Version Control & Tools

Git Composer WP-CLI

Other Programming Knowledge

C C++ Java (basics) Embedded systems fundamentals

Additional Expertise

REST APIs database optimization SaaS applications full-stack development

LANGUAGES & OTHER INFORMATION

Arabic
